

IHM Certificate Program

Emergency Medical Technician-Paramedic (EMT-P)

IHM has been committed to producing the best paramedic graduates for over thirty years. IHM's program is the only paramedic program in the state of Missouri accredited by CoAEMSP. We were one of the first professional EMS schools in the region and we continue to be advantageously affiliated with the Metropolitan St. Louis hospital and EMS community. Since IHM's inception, the school has not wavered from its emphasis on paramedic education.

This year-long program and successful completion of the NREMT-P exam will prepare the student for entry level employment as an EMT-P.

IHM Health Studies Center will prepare you to realize your dream of helping others in their time of greatest need. If you want to be an outstanding paramedic you owe it to yourself to take a closer look at IMH Health Studies Center.
